Machines cutting tools for plastics, rubber and recycling industries

NOMA TOOLS manufactures knives and other spare parts to granulators, mills and crushers used to grind, break up and recycle the plastics, rubber, rocks and demolition materials. We use high-quality tool steels.

Our products meet the highest requirements related to dimension tolerances and life.

Heat treatment is carried out in specialist computer-controlled furnaces that provide repeatability of the process and allow obtaining required parameters.

We supply products both to machine manufacturers market and to users of machines.

We manufacture, among other things:

- granulator rotary knives
- granulator stationary knives
- crusher knives
- counter knives
- breaking up cutting tools
- shredder knives
- mill cutting tools
- comb cutting tools
- crown knives

If you are interested in details of our offer, please contact us or send an offer inquiry with drawing of a product, quantity and all information which you find important and which shall allow us to prepare the best offer.

Recycling and plastics industry

Plastics / Rubber processing / Recycling

We manufacture industrial cutting tools for all granulators and mills known at the market, including among others:

Herbold

Rapid

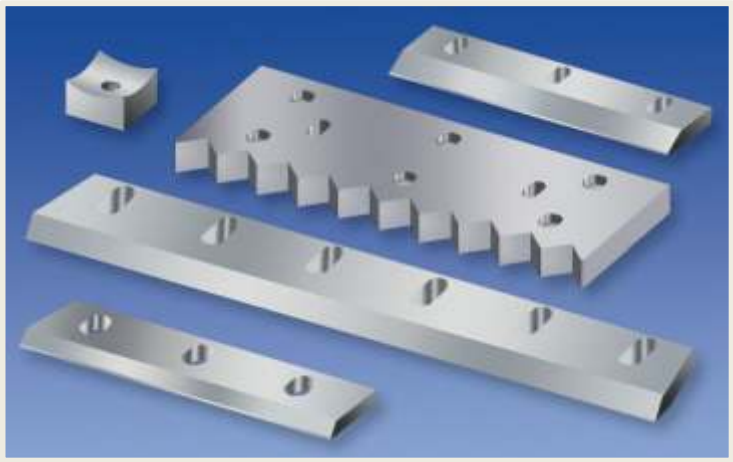

Alpine

Condux

Zerma

Alphatec

Other cutting tools and spare parts according to individual customers' needs.

Recycling and plastics industry

Plastics / **Rubber processing** / Recycling

We manufacture machine knives for cutting and processing rubber, including:

Weima

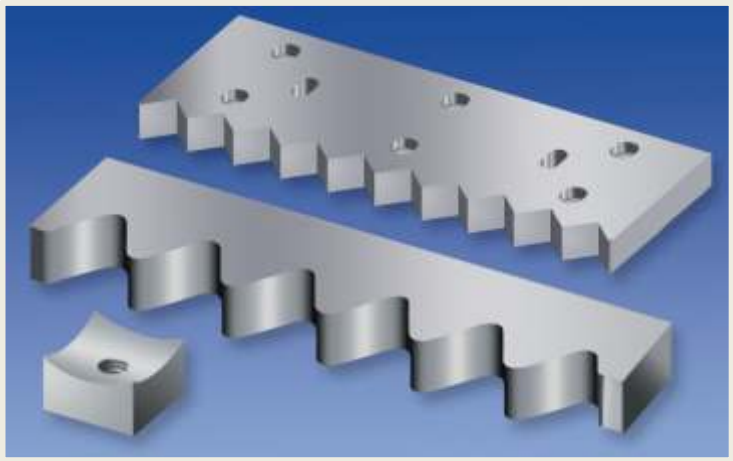

Vecoplan

Zeno

Zerma

Herbold

Other cutting tools and spare parts according to individual customers' needs.

Recycling and plastics industry

Plastics / Rubber processing / **Recycling**

We manufacture industrial cutting tools and other wearing parts to all lines known at the market to recycle plastics, tires, concrete, etc., including:

Alpine

Arden Equipment

Herbold

Weima

Rapid

Vecoplan

Other cutting tools and spare parts according to individual customers' needs.
